

Allelo Restaurant

VISO Casts Light on Dining Experience

St. Petersburg Annata has finally reopened but under a new name, Allelo! The Mediterranean-themed restaurant boasts a new concept and brand development which needed a full, top-to-bottom redesign. Working in collaboration with award-winning firm AvroKO and GoodShop Manufacturies, VISO Lighting fabricated and design-engineered the bespoke lighting at this fresh new place to flock on Beach Drive!

Project Brief

Allelo, formerly Annata and Alto Mare, have merged the two restaurants and reopened under new branding. With this, a whole new makeover was in order. Working in collaboration with AvroKO and GoodShop Manufacturies, VISO casts a little light (and more) on having a memorable dining experience.

As a result, VISO design-engineered and fabricated the custom lights in this beach destination that curates memorable dining experiences for its guests. Notably, the lights in this bespoke lighting package all feature solid cast glass for each of the shades. This ensures the light fixtures are of great quality and refract light in a beautiful way.

The Solution: Custom Chandelier

Included in this package is a feature chandelier with a unique structure. Consequently, each of the cast glass, fluted shades delicately rest on an angle upon metal threaded rings in our proprietary oil rubbed bronze finish.

Dimensions:

Diameter: 60" / 1524mm

Height: 40" / 1016mm

The Solution: Custom Table Lamp

Similarly, the shades of the custom table lamps that rest at the bar are made of cast glass. In this case, the glass features two finishes: a frosted finish inside and a glossy finish on the exterior for a lustrous feel. 5 of these beautiful lamps line the bar and houses 2x LED filament bulbs with 4W at 2700K for a warm, inviting ambience.

Dimensions:

Diameter: 10" / 152mm

Height: 13" / 330mm
