

# Crescent Collection

A sculptural, slender profile, evoking a sense of elegance and refinement.

Introducing the Crescent Collection, a collaboration between II BY IV DESIGN and VISO. The Crescent lighting collection stands as a pinnacle of design innovation, representing a paradigm shift in lighting design for hospitality, residential, and commercial environments. This Collection is setting a new standard of excellence in both form and function. Inspired by the interplay of light reflections, the undeniable merit of this collection captivates with its sculptural, slender profile, evoking a sense of elegance and refinement that resonates with even the most discerning hospitality environments. Available as a pendant or floor lamp, sweeping curves and crisp lines express a consistent gentle glow across the space. With high-end details and materiality such as black chrome and marble, each fixture transforms beyond a lighting fixture and becomes a statement piece.
